Career Objective

MCA candidate and a spiring Frontend Developer with strong knowledge of HTML, CSS, Python. Skilled in developing responsive and user-centric web applications with backend integration using PHP and MySQL. Seeking an opportunity to contribute technical skills and grow as a professional developer.

Technical Skills

Programming Languages:C, Java, Python

Frontend Technologies:HTML, CSS

Backend Technologies:PHP, MySQL, JDBC

Tools:Git, GitHub, VSCode

CoreSkills:Responsive WebDesign,UI Development,Problem Solving,Team Collaboration

Projects

Project 1: Hospital Management System

Technologies: HTML, CSS, MySQL, PHP

- Action & Task: Developed a comprehensive database management system featuring a user-friendly interface to streamline administrative hospital operations.
- Action: Engineered full-stack functionality by successfully integrating front-end interfaces with a relational MySQL backend database.
- Result: Implemented core operational modules, including secure user authentication (login/registration) and an automated appointment booking system, establishing efficient patient data management.

Project 2: Sentiment Analysis on Smartphone Reviews

Technologies: Python, Jupyter, Machine Learning Models

- Action & Task: Built an automated feedback evaluation tool to analyze unstructured smartphone review data and categorize user sentiment.
- Action: Trained and implemented Random Forest and Naïve Bayes classification algorithms to evaluate text across three strict parameters: positive, negative, and neutral.
- Result: Achieved high data accuracy in sentiment prediction, transforming raw customer feedback into measurable, quantifiable data.

Education

MasterofComputerApplications(MCA)

Techno Main Salt Lake, MAKAUT

Expected Completion:2027

Pursuing

BachelorofComputerApplications(BCA)

Techno India Hooghly Campus, MAKAUT

CGPA: 8.13

2025

HigherSecondary(WBCHSE)
